

Overview

Course Prefix, Course Number, Title: ED260L-15904 Clinical I
Credits: 0

Semester/Year: 2022 Fall

Campus Connection Course Dates: 08/22/2022 - 12/16/2022

Mode of Delivery: On Campus Face to Face

Instructor Information

Kathryn Hintz

kathy.hintz@minotstateu.edu

Office Location: Swain 218D

Office Hours: MWF1-4

Phone: 701-858-3572

Course Details

Catalog Description: The initial-level clinical within the teacher education program provides candidates with 10 hours of observations in schools related to their major and the content in educational psychology.

Placement Policies: none

Required Course Materials

Access to TK20 or Student Learning and Licensure

TK20 is NOT required for non-education majors such as Communication Disorder majors.

Student Learning Outcomes

- SLO 1.1 The teacher candidate demonstrates knowledge of how learners grow and develop across domains (cognitive, linguistic, social, emotional, and physical areas.) SLO 5.1 The teacher candidate makes connections among concepts and relates content to real world problems and meaningful applications.

Course Objectives

- 2. Make connections between academic content and the meaningful application of that content to real world problems
- 1. Apply knowledge of development across domains to the observation of students in classrooms

Assignments and Grading

Grading Policy and Scale: This course is an S/U graded course. In order to earn an “S,” you must complete ten hours of observation, have those hours verified by your cooperating teacher, and complete a journal entry assignment in TK20.

Assignments and Due Dates: You must submit the following materials in order to pass this clinical:
1. Journal entries 2. Hours log

Early Level Transition Conference: When you have completed ED 260L, ED 282L, and ED 284L you will schedule a conference with at least one faculty member. Directions for these conferences can be found on the web under Teacher Education/clinical experiences or obtained from the Office of Teacher Advisement and Field Placement (858-3838). At that time you will also write a paper based on journal entries from your previous clinical experiences.

Tentative Course Outline: You MUST complete the [Clinical Request form](#) for the appropriate semester. You will receive your placement sometime after the beginning of the semester and should promptly contact the cooperating teacher to set up a regular and consistent schedule for your clinical hours. Setting up this schedule, and sticking to it, are signs of professional behavior. Failing to do so is the most likely reason for failing a clinical or being asked by the teacher to not continue. During your visits, you should make sure to take notes so that you remember what you want to write about

in your journal entries. Your materials in TK20 will be due the Wednesday of finals week in any given semester.

Important Dates

Final Exam Date and Time: This course does not have a scheduled meeting time and therefore does not have a final exam time. Please note the due date for materials in TK20 binders noted above.

Assessment Day: 9/19/2022

Late and Missed Work

There are few deadlines in this class. If you do not contact your cooperating teacher promptly, that teacher is likely to ask for you to be removed from his or her classroom, which is his/her prerogative.

Missed clinical sessions will need to be made up in order to reach the required number of hours. If you experience difficulty completing your binder materials at the end of the semester, you should contact me immediately so that we can deal with the problem before grades are due.

Attendance Policy

University Attendance Policy

Minot State's attendance policy is posted here: <http://www.minotstateu.edu/records/pages/policy-class-attendance.shtml>

Class-specific Attendance Policy: You must be in attendance at your clinical sessions as you have them scheduled with the cooperating teacher. Simply showing up unannounced is unacceptable.

Equally unacceptable is failing to show up when you have said you will be there. You should contact the teacher, the school secretary if you are unable to reach the teacher, and me if you are absolutely unable to attend a scheduled session.

University Sanctioned Events Policy

Minot State University has a commitment to students who represent the University in official capacities. University-sanctioned activities include events that are required or encouraged by a class, program, club, or athletic team. When a student has a scheduled absence due to a university-sanctioned activity, it is the student's responsibility to communicate with the faculty member prior to his or her absence.

Missing clinical sessions for attendance at university sanctioned events should be avoided when the initial schedule for clinical sessions is made by not putting clinical sessions on days you know you will be gone. If a university sanctioned event comes up unexpectedly then you should contact the teacher as well as me to let us know of the conflict and reschedule your session.

Academic Honesty Policy

Honesty and integrity are central to academic life at Minot State University. They create a trust necessary in a community of scholars. When that trust is violated by cheating in any form, the atmosphere of academic freedom is threatened.

Minot State University is committed to academic integrity. Incidents of academic dishonesty may be documented by the faculty member with a copy of the documentation maintained by the department/division chair. A letter of explanation will be sent to the student. Cheating may affect the student in accordance with the faculty member's grading policy. The student may appeal the faculty member's penalty to the department chair. Student disciplinary action may result in accordance with the Student Conduct Policy, found in the Student Handbook. Academic dishonesty would include, but is not limited to, the following types of behaviors:

1. Misrepresenting another individual's work as one's own, e.g. plagiarism from hard copy or the Internet.
2. Copying from another student during an exam.
3. Altering one's exam after grading for the purpose of enhancing one's grade.
4. Submitting the same paper to more than one class.
5. Use of any material or device not approved by the instructor during an exam.
6. Turning in reports intended to be based on field collection data but which are, in fact, not.
7. Failure to respect the confidentiality of persons served or studied and to maintain the professional standards for ethical conduct as set forth in The Handbook of School Psychology published by the national Association of School Psychologists

Penalty for Violating the Policy: Failure to comply with all of the policies above can have a variety of consequences, including receiving a "U" in the clinical. Education majors should pay particular attention to numbers 6 and 7 above as violations of these items will result in automatic failure of the clinical.

Masks and Face Coverings

In this course, students may be expected to wear a mask or face covering while in the classroom, laboratory, or clinical/school setting. If so, your instructor has indicated this requirement below. If a student chooses not to wear a mask or face covering in an area where it is required:

1. The individual will be asked to comply with the policy. If the person refuses to comply, they will be asked to leave the space. If the person won't comply or leave, MSU Security may be contacted, if necessary, at 701-500-2423.
2. If an individual violates the mask or face covering policy a second time, they will again be asked to comply with the policy. If the person refuses to comply, they will be reported to the [Vice President for Student Affairs](#) for a Code of Student Life violation.

Individuals who would like to discuss accommodations regarding masks or face coverings should contact [Access Services](#), in person, by phone at 701-858-3372, or by e-mail at access.services@minotstateu.edu.

Tutoring

The Minot State University Academic Support Center would like to help you reach your academic goals by offering free peer tutoring beginning the second week of classes in the lower level of the Gordon B. Olson Library and virtually. No appointment is necessary and there is no limit to how many times you may meet with a tutor. For a current tutoring schedule, visit https://www.minotstateu.edu/asc/peer_tutoring.shtml. Times and subjects offered may change during the semester so check the schedule often. Visiting the Academic Support Center early in the semester with continued regular attendance produces the best results.

ADA Accommodation Statement

In coordination with Access Services, reasonable accommodations will be provided for qualified students with disabilities (LD, Orthopedic, Hearing, Visual, Speech, Psychological, ADD/ADHD, Health Related, TBI, PTSD and Other). Please meet with the instructor during the first week of class to make arrangements. Accommodations and alternative format print materials (large print, audio, disk or Braille) are available through [Access Services](#), in person, by phone 701-858-3372 or by e-mail at access.services@MinotStateU.edu.

Non-discrimination Statement

Minot State University subscribes to the principles and laws of the state of North Dakota and the federal government pertaining to civil rights and equal opportunity, including Title IX of the 1972 Education Amendments. Minot State University policy prohibits discrimination on the basis of race, gender, religion, age, color, creed, national or ethnic origin, marital status, sexual orientation, gender identity, or disability in the recruitment and admission of students and the employment of faculty, staff, and students, and in the operation of all college programs, activities, and services. Evidence of

practices which are inconsistent with this policy should be reported using the Student Complaint and Anti-Discrimination Form located here: <https://form.jotform.com/72996849416981>.

For the complete non-discrimination statement, visit [here](#).

Title IX Statement

Minot State University (MSU) faculty are committed to helping create a safe learning environment for all students and for the university as a whole. If you have experienced any form of sexual harassment including sexual assault, dating violence, domestic violence, and stalking know that help and support are available. MSU has staff members trained to support parties in navigating campus life, accessing health and counseling services, providing academic and housing accommodations, and more. The University strongly encourages all students to report any such incidents to the University. Please be aware that all MSU employees (other than those designated as confidential resources such as counselors, clergy, and healthcare providers) are required to report information about such harassment to the University. This means that if you inform a faculty member about a situation of sexual harassment or other related sexual misconduct, the faculty member must share that information with the University's Title IX Coordinator. If you wish to speak to a confidential employee who does not have this reporting responsibility, you can find a list of resources on the Title IX website. For more information about your options, please visit the Title IX website: <https://www.minotstateu.edu/title9/>.

Connections to coursework

ED 260 Connections: ED 260 – Educational Psychology – is a complementary course to ED 260L – Clinical I. ED 260 is designed to provide teacher candidates with a knowledge base to better understand, contemplate, and reflect upon what is being observed in a classroom as part of Clinical I. Specifically, ED 260 introduces topics such as child and adolescent development, learning styles, and cognitive, motivational, environmental, and cultural factors in teaching and learning. This introductory course in the professional education sequence, along with the observations in ED 260L, helps build a foundation so that teacher candidates, in the future, can a) use understanding of how learners grow and develop to design and implement developmentally appropriate and challenging learning experiences (InTASC Progressions 1 & 2a), and b) use understanding of learners' commonalities and individual differences to design inclusive learning experiences that enable each learner to meet high standards (InTASC Progressions 1 & 2b).
